

Stray Kats Coin

WHITEPAPER 1.0

INTRODUCTION

What is the Stray Kats Token?

The Stray Kats Token was explicitly designed to be a community-driven, ownership-renounced token, but is intended for everyone who loves cats.

Anyone can join the Stray Kats community, with the provision that their behavior reflects the community spirit of kindness, transparency and philanthropy. The token is entirely community-driven, and was designed to be a community commodity for goodness.

Why Should I Invest in the Stray Kats Token?

Our pledge is to conduct all transactions publicly, honestly, and with the intent to allow this cryptocurrency to behave as it should in the wild. In an environment free of the fear of rug-pulls, liquidity theft or “pumping and dumping,” this token can progress as far as the community that supports it.

- 100% SAFE Project
- Long Term Value
- Low Market Cap
- Passive Income
- Community Driven

Disclaimer

While the Stray Kats Token is intended to create a community, nothing in this document is intended as financial advice. Please research this (and all) cryptocurrencies thoroughly before investing in them. By purchasing Stray Kats Tokens, you are aware that this is not a security or investment. Please do not invest anything you cannot afford to lose, use your head, and consult a financial advisor with any questions about investing in a financial market.

THE COIN

The Stray Kats token was born on March 4, 2022.

3% of the coin is locked into a dual-signature marketing wallet for the purpose of donations.

The Gnosis Safe Wallet can be viewed here:

Shortly thereafter, ownership of the project was renounced by sending the initial capital and project liquidity to its burn address.

This cannot be reversed.

The Stray Kats Token now runs wild and free in its community, fed entirely by the support therein.
